SitAbility
moving you in comfort

Powered chairs that fit you perfectly

Designed and manufactured in the UK

Sitability exclusively produce the **eLift** and the **eMove** powered chairs based on ergonomic office seating. Our team has over 30 years experience of designing and building chairs for people with complex seating needs.

The **eliftRotate** is an office chair with a powered seat lift & movement brake. Seat rotation and full manual adjustment. Suitable for home or office use.

The **eliftTilt** has powered seat tilt plus the eLift-Rotate features.

The **eLiftDrive** is an ultra compact chair suitable for indoor mobility with a powered seat lift and manual adjustments including seat rotation.

The **eLiftDrive-Tilt** has a powered seat tilt with the features of the eliftDrive.

eLiftRotate

eLiftDrive

The **eMove5-RX** is a motorised office chair. Powered drive and seat height lift come as standard with the option of having additional powered adjustments to assist those with severe muscle weakness.

The slim compact design and rotation within its own axis gives high manoeuvrability.

This combined with a seat swivel makes it ideal for use in restricted spaces without structural modification to the home or workplace.

The **eMove5-Recline** is an office chair with powered recline.

The **eMove5-Stand** is a motorised sit-to-stand office chair that gives you the freedom to change posture at will from sitting to standing for improved breathing, digestion and muscle tone. In an upright standing position you are fully supported to work or interact with other people as desired.

All models come with upholstery shaped and sized to fit you for maximum comfort and support.

eMove5-RX

eMove5-Stand

Free on-site seating assessments anywhere in mainland UK

For the best possible result we offer a free on-site seating assessment.

Based on your body measurements and clinical condition our experienced staff will visit to discuss the various options so you can decide on the most appropriate model for your requirement.

eMove5-RX NEW

The UK's only motorised office chair based on ergonomic seating

Our revolutionary eMove5-RX

The eMove5-RX is an office chair that works like a powered wheelchair with unmatched manoeuvrability due to its slimline design, precision driving and ability to rotate on its own axis.

It offers the full range of adjustments normally found in an ergonomic office chair with sized upholstery for maximum postural comfort and seat relieving for pressure points. Its unique integral seat rotation stops twisting of the upper body when reaching.

Powered drive and lift can be combined with powered options or other mechanical adjustments to provide mobility for people with severe muscle weakness or partial paralysis. The chair hands back independence allowing unhindered access about the home or workplace with freedom to interact with colleagues even in restricted spaces.

Adapts to your particular needs

The eMove5-RX comes with a comprehensive range of options for assistance with access into and out of the of the chair as well as postural changes while seated. Sizing the chair upholstery to suit an individual, we create bespoke chairs to suit clinical conditions.

Model: EM5.024-RX

Exclusive from SitAbility

British design and build ingenuity

Based in Reading, SitAbility has 32 years experience dealing with the most complex customer seating needs.
With the eMove5-RX we've achieved new levels of performance.

FREE demo

To arrange a free test drive contact us on **0118 957 4620** or email **sales@sitability.co.uk**

On Powered models

Adjustment

• Seat tilt	(+30° -10° range)
• Backrest tilt	(+25° -10°)

NEW

The UK's only reclining motorised office chair based on ergonomic seating

Relax back

Our unique compact eMove is now available in a recline-stand version, the eMove5-Recline.

Operating the joystick you can recline with support to the legs or sit upright then into a stand-assit position.

This freedom to change posture from a sitting to recline position at will reduces sitting pressure.

A detachable keyboard tray, stepped position fold back arms and headrest provide a typing environment.

The eMove5-Recline changes into an office chair with unmatched manoeuvrability due to its slimline design, precision driving and ability to rotate on its own axis.

It offers the full range of adjustments normally found in an ergonomic office chair with sized upholstery for maximum postural comfort.

Adapts to your needs

With the eMove5-Recline we've expanded the eMove possibilities.

Cost

- **From £9,900.00**
  Excludes VAT and Setup.

Positions

Reclined with keyboard tray attached

Upright as an Office chair

In Stand-Assist mode

eMove5-Stand NEW updated

The UK's only stand-up motorised office chair based on ergonomic seating

Exclusive from SitAbility

Stand and stretch

Our unique compact eMove is now available in a sit-to-stand version, the eMove5-Stand.

Operating the joystick the user is raised into a supported standing position.

Freedom to change posture from sitting to standing in an upright position improves breathing, digestion and muscle tone.

Work in restricted spaces without modification and access high surfaces and cupboards.

In domestic situations daily jobs such as cooking or ironing become easier.

The eMove5-Stand is an office chair that works like a powered wheelchair with unmatched manoeuvrability due to its slimline design precision driving and ability to rotate on its own axis.

It offers the full range of adjustments normally found in an ergonomic office chair and comes with sized upholstery for maximum postural comfort.

Adapts to your needs

With the eMove5-Stand we've expanded the eMove possibilities.

eMove5-Stand

The eMove5-Stand has an all inclusive package of powered
Drive
Seat height
Footplate height
Seat tilt
Backrest tilt

Sit-standing operation

As the footplate lowers to the floor the seat and back move together to lift the user into a standing position.

Features

Backrest recline

For loss of core body strength the backrest can be reclines prior to actvating standing.

Powered footplate

The footplate moves with seat height and travels independently providing precise control over leg height to maximise comfort in knee, ankle and foot.
When the footplate is in contact with the floor drive is immobilised.

Leg supports

Curved padded leg supports are depth and width adjustable.
Remove via a release pull ring.

Arms

Swing up to allow access to worksurface and maintain position of joystick for driving.

Option

Adjustable Harness

Four point harness with quick release button.
Straps fit over shoulder and around waist to hold posture.

Cost

From £11,900.00

Excludes VAT and Setup.

Price on application

Contour-fit
bespoke upholstery

In some cases when standard upholstery cannot provide sufficient support and creates postural pain we can assist with individual hand-shaped upholstery that provides full support from the back or in the seat.

We handcraft using an extensive range of high performance foams and memory foams which of which vary in softness and density.

Using our range of seat and back sizes we combine strategically placed aircell/s and when required a Schukra high performance pelvic/lumbar support.

Onsite assessments are carried out to ensure we accurately assess the posture used in the workplace.

* On site assessment
* An exact fit with different areas of softness for optimal comfort.
* We have over thirty years experience creating designs to resolve posture related pain.

How to Order

Please help us by using our product names, codes.

For example an eMove5-RXwith left hand joystick: EM5-RX.024 + EM5-03
Please also include the full delivery address, a contact name and telephone number.

Delivery

Normal delivery time is approximately 6-8 weeks on eLift and eMove chairs. Delivery for special / 'bespoke' chairs is approximately 8-10 weeks.

We do have limited stocks of certain standard models that we can despatch on a faster service. Please contact us to inquire if you have an urgent requirement.

Delivery is by our own staff with in UK. All our chairs come with comprehensive operating instructions, in addition we offer advice on how to set-up the chair on delivery.
Delivery charges are additional and will be detailed on the invoice. Please advise at the time of ordering if you wish to collect or use your own freight company.

Orders from Europe

All European customers must supply their VAT number when placing orders, otherwise VAT will be charged at the current rate. Any local taxes, custom duties and bank charges that may apply are strictly the responsibility of the customer. Please telephone to obtain a quote for a delivery charge if you are not using your own freight company.

How to Pay

Payment can be made by:

- UK Cheque: £ sterling on a UK bank. Please make cheques payable to: SitAbility Limited.
- Credit cards: We accept pavment via PayPal. Please supply the following details: card type, card number, expiry date, account holder's name, full address and telephone number.
- BACS. Bank details available on request.

New Customers

If you do not have an account with us, we can provide a proforma invoice. Payment in full is required before goods are despatched. If you wish to open an account with us, account application forms are available on request.

Fabric Colours and Special Materials

We make every effort to reproduce the fabric colours shown in our selector as accurately as possible. However, due to the printing process we cannot guarantee a perfect match to the actual fabrics themselves. We are happy to send samples should you require them.

If you wish to use a different type of fabric or colour, we can oblige and will advise on any additional cost or delivery delay that may be incurred.

Claims and Returns

Please notify us within 24 hours of receipt of goods of any claims in respect of lost, damaged or faulty goods or shortages on delivery.

Notification of a claim outside of this period will not be enforceable against us.

Please do not return goods without contacting us, in advance. A returns authorisation number is required. Please make every effort to protect the goods in a plastic covering before returning.

Guarantee

The eLift and eMove powered office chairs are guaranteed for one year subject to fair wear and tear, or five years with a yearly maintenance contract. The eLiftRotate/Tilt/Drive battery is guaranteed for one year and the eMove5-RX battery is guaranteed for one year when charged on a regular basis as stated in our instructions leaflet.

Compliance

BS 5852-part 2:1990 ignition source 5.
BS 7176, Medium Hazard flammability.
BS 5852-part2:1990 ignition source 7.
BS 7176, High Hazard flammability.
BS EN 1335-1:2000 Dimensions, Type A and Type B.
BS EN 1335-2:2000 Safety Requirements.
BS EN 1335: Part 3>2000

All our chairs exceed the minimum safety & health requirements for work with display screen equipment Directive 90/270/EEC.

Product Development

We strive to maintain continuity of design and specification for all our chairs. However we have a policy of continuous improvement and development so we may change or upgrade our specifications to maintain quality and performance for our customers.

Environmental Statement

We at SitAbility are environmentally aware and make every effort to minimise any negative impact on the environment that our products could have.
